To begin with, it is my belief that there is no place to war in nowadays world due to the fact, that war is always ^{brings deaths} numerous of deaths everytime. In such situation there is no any victor, everyone loses their people and decreases a level of life ~~for~~ ^{of} the common citizens for some period of time.

In my opinion, country which starts a war in nowadays world makes a big mistake by killing their people for some unnecessary reason. It is obvious for everyone that any argument can be solved ^{peacefully} (by only worlds). ~~Politions~~ ^{Government} should understand that ~~to~~ ^{elect} people believe in them and choose ~~government~~ ^{change them} with a thought of making their life better. With a war government just gives ^{put at risk} a risk for their people, people fight for some reasons and die, however, before everything ~~this~~ ^{politicians} presidents of every country can just talk and find a compromise.

In the end of a war both sides find some solutions but people are already dead and nothing can be ^{caught} come back. After a war everything becomes better and life of a government too but life of families who lost their children changes forever.

Honestly, I understand why war was in the ^{took place}

past, people fought for their lives, territories, religion and so on, however, in nowadays world, there is no reason to kill each other.

No one ^{should} can think that they can kill others for some reasons because it is ^{ab}unnatural in healthy society.

To conclude, I would like to summarize all information. In case of war people should think carefully should they ~~to~~ fight or tell the government that this is ^{ab}unnatural way to solve any problem. Moreover, government should think more about ~~poor~~ citizens and try to find a compromise. (290w)
